Good afternoon Ms. Tencati,

I've been exploring digital art a lot lately which includes animating and designing yet, I've also been sculpting and painting. I'm currently in a First Year Entrepreneurship Program at MICA where I've been inspired by the conversations, assignments, and guests that we've been exposed to. Even though times are different, I'm making the best out of my situation and creating new and exciting work. I want to thank the Womens Club of Coconut Grove, The Korth Family Foundation, and you Ms. Tencati for helping me. Attached are my documents of enrollment and some of my artwork

Sincerely,

Destiny Moore
